01 INTRO TO ILIKA

Begin with the Earth.

Modern life has made us faster, louder, and increasingly disconnected from the very systems that keep us well.

We spend more time under artificial light than the sun, breathe conditioned air instead of fresh winds, and walk on concrete more often than soil.

ILIKA begins with a simple question.

What if a home could restore that connection?

Designed around the rhythms of nature rather than convenience, ILIKA is a collection of spaces where architecture, landscape, climate, and community exist in quiet harmony.

Your private retreat. *Every day.*
Designed for slower evenings and deeper moments.

Where Life Returns to Its Roots

At ilika, the design begins with a simple thought: when we are connected with nature, the way we live changes.

The architecture therefore brings together natural materials, thoughtfully curated spaces, wellness-oriented experiences and sustainable practices to create a lifestyle that feels slower, healthier and more connected.

Natural material *Better spaces* *Wellness* *Responsible living*

02 LIME PLASTER

Why lime plaster?

Naturally regulates temperature, keeping interiors cooler and more comfortable. A premium, labour-intensive technique that adds lasting character and luxury.

Benefits of lime plaster

We chose traditional lime plaster as a natural alternative to cement-based finishes — breathable, durable, and made to age beautifully with the architecture.

TWELVE QUALITIES OF A LIVING WALL

Signature lime plaster finish

A premium architectural finish that adds depth, warmth, and enduring luxury to every surface.

Thermal comfort

Breathable walls for cooler, more comfortable interiors — reducing indoor temperatures by up to 6–8°C.

Lower environmental impact

Made from natural mineral materials with a lower environmental footprint than many conventional finishes.

Resists bacteria, mould & mildew

Being alkaline, it does not allow the growth of mould, mildew and some bacteria.

Artisanal & handcrafted

Handcrafted lime plaster with refined, timeless character where natural texture meets sophisticated elegance.

Repairable

Unlike many modern finishes, lime plaster can be maintained and repaired without replacing the entire surface.

Breathable

Allows walls to naturally regulate moisture and indoor humidity.

UV safe

Lime plaster is typically 1,500 to 2,000 microns thick — a mineral finish made to last for generations.

Purifies air

Hypoallergenic and good for indoor air quality — kinder for people with breathing problems.

Ages gracefully

Its subtle texture and natural patina become part of the building's character over time.

Naturally durable

Lime finishes develop character over time rather than looking worn or artificial.

Preserving tradition

Specialised craftsmanship ensures lasting beauty while protecting the integrity of the lime plaster finish.

03 SPACES

Why curated spaces?

Every space is thoughtfully designed for every mood, moment and way of living — seamlessly blending interiors, exteriors and landscape into one refined experience.

Curated spaces

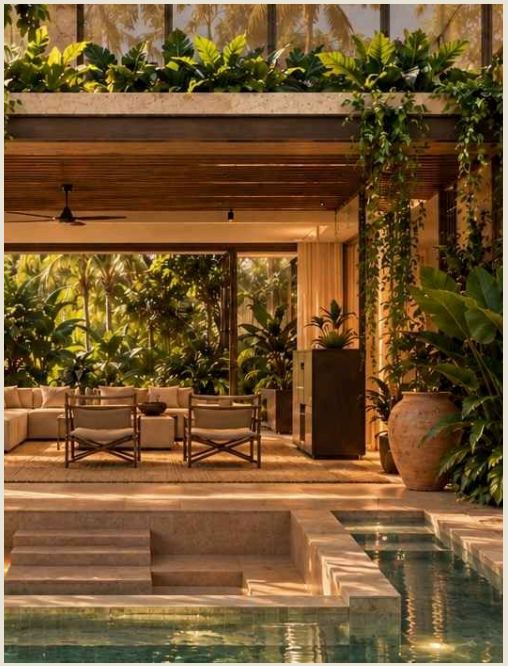

A collection of thoughtfully designed settings, each created for a different rhythm of living.

Private and personal

Refined kitchen seating, an intimate poolside lounge and serene outdoor-room settings for everyday indulgence.

Social and entertaining

Elegant drawing-room seating and inviting common spaces designed for conversation, celebration and togetherness.

Nature-connected living

A gazebo lounge and open-air corners that bring you closer to the landscape.

Mindful and restorative

Dedicated meditation spaces and tranquil sit-outs designed for stillness, reflection and renewal.

Flexible living

Multi-use spaces that adapt effortlessly from work and reading to conversation, leisure and quiet personal time.

Open kitchen

A shared culinary space designed for gathering, cooking and connecting.

Where Nature Meets Leisure.

An intimate pool court designed as an extension of everyday living. Warm natural finishes and lush planting create a calm, tropical retreat. Open views, soft lighting and curated seating invite effortless relaxation — a private setting where every sunset becomes part of the experience.

04 WELLNESS

Why wellness?

Wellness is not an amenity — it's a way of living. Spaces that restore, recharge and reconnect, where architecture becomes part of your well-being.

Where wellness is woven into everyday living.

Spaces and rituals that calm the mind, heal the body and reconnect you to the earth — drawn from traditional wellness practices.

01	02	03	04	05	06
Yoga	Meditation	Sun bath	Mud bath	Barefoot living	Copper earthing

01 / 06

Yoga

A DEDICATED OPEN-AIR SPACE WHERE DAILY PRACTICE BECOMES EFFORTLESS.

Promotes daily practice

A dedicated space encourages residents to practise yoga regularly.

Improves flexibility

Strengthens muscles and supports better posture and spinal alignment.

Enhances breathing

Fresh air, natural surroundings and open spaces support deeper breathing.

Supports emotional wellbeing

Helps reduce anxiety, improve mood, and create a sense of inner peace and emotional balance.

02 / 06

Meditation

A QUIET CORNER OF THE LAND WHERE STILLNESS BECOMES A DAILY HABIT.

Encourages mindful living

Create moments to pause, breathe and reconnect with yourself.

Creates restorative space

Calm, considered corners designed for stillness and reflection.

Promotes inner calm

Soft light, natural materials and quiet help settle a busy mind.

Peaceful sleep

Winding down close to nature supports deeper, more restful sleep.

03 / 06

Sun bath

A SUN-FACING DECK MADE FOR SLOW MORNINGS AND UNHURRIED WARMTH.

Natural vitamin D

Helps strengthen bones and boosts overall immunity.

Improves mood

Sunlight triggers the release of serotonin, which reduces stress.

Enhances mental clarity

Fresh sunlight improves focus, alertness and cognitive function.

Invites stillness

A quiet, sunlit retreat for unhurried mornings, reflection and wellbeing.

04 / 06

Mud bath

AN EARTHEN RITUAL THAT COOLS THE BODY AND RETURNS IT TO THE SOIL.

Cooling and refreshing

Provides a naturally cooling experience, especially in warm weather.

Improves skin health

Helps in treating acne, eczema and other skin problems.

Reduces stress

Calms the nervous system, reduces stress and promotes mental relaxation.

Improves sleep

A cooling, mineral-rich ritual that helps the body unwind before rest.

05 / 06

Barefoot living

SOFT GRASS AND WARM STONE, MEANT TO BE WALKED WITHOUT SHOES.

Grounded wellness

Direct contact with the earth helps reduce inflammation and balance cortisol levels.

Energy balance

Helps your body absorb free electrons from the earth, boosting energy naturally.

Mind–body harmony

Walking barefoot helps you slow down and feel connected to nature and yourself.

Natural rejuvenation

Encourages mindful movement and promotes a sense of calm and well-being.

06 / 06

Copper earthing

A TRADITIONAL PRACTICE WHERE COPPER CARRIES THE EARTH'S CHARGE.

Boosts immunity

Strengthens the immune system and helps the body fight illness better.

Improves focus and clarity

Enhances focus, concentration and mental clarity, naturally.

Reduces inflammation

Helps reduce chronic inflammation in the body, relieving pain.

Relieves pain naturally

Helps reduce pain from conditions like arthritis, back pain, headaches and more.

05 SUSTAINABLE DESIGN

Why sustainable design?

Sustainability is not just a design choice; it is a way of living in harmony with nature. Through climate-responsive architecture, natural materials, lime plaster finishes and thoughtfully curated spaces, we create homes that breathe naturally, connect you with the outdoors and promote everyday well-being.

Climate responsive design

A farmhouse designed around the rhythm of nature.

Architecture in harmony

Design that responds to sun, wind, shade and seasonal rhythms to create naturally comfortable spaces.

Passive cooling, naturally

Thoughtful orientation, shaded openings and cross ventilation reduce dependence on mechanical cooling.

Shade by design

Deep overhangs, verandahs, pergolas and landscaped buffers create cooler transitions indoors and out.

Cross ventilation

Aligned openings encourage natural air movement, keeping living spaces fresh and comfortable.

Landscape as a climate element

Trees, planting and green buffers provide shade, reduce heat and soften the microclimate.

The luxury of natural comfort

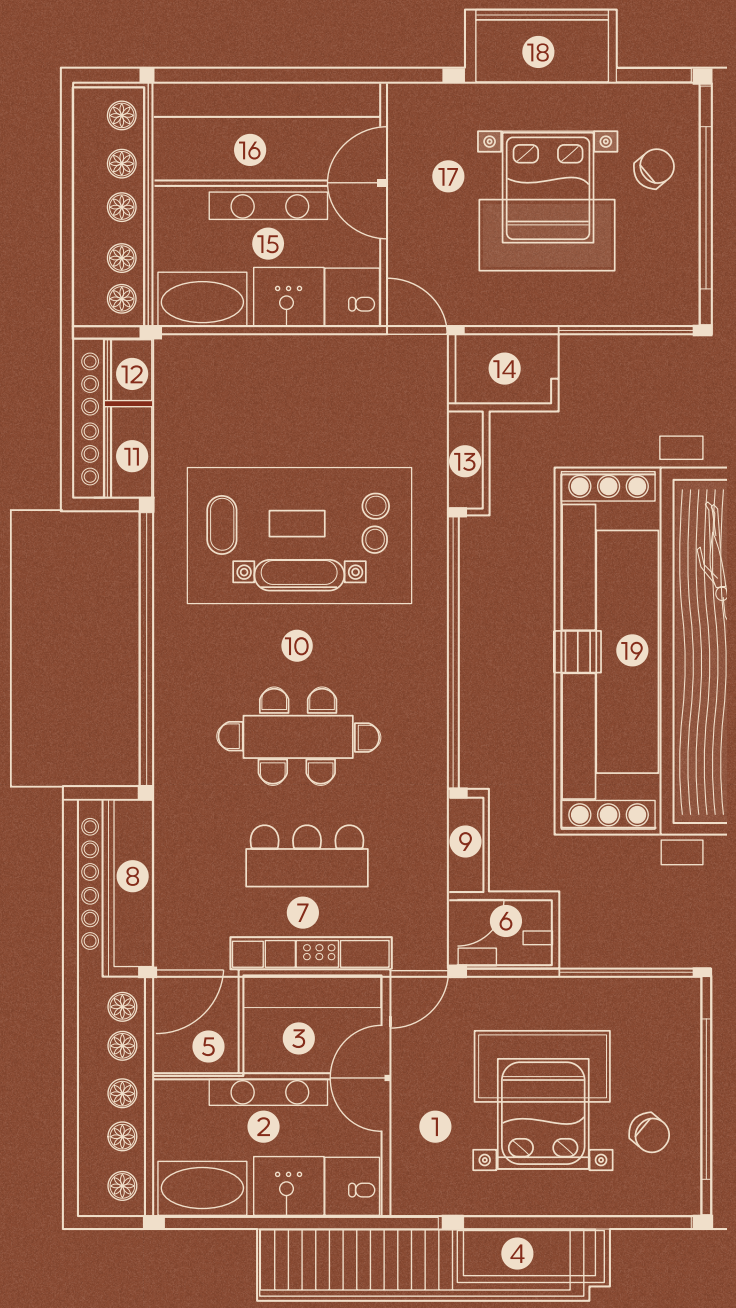

Not just beautiful to look at — naturally cooler, brighter and more connected to the outdoors.

06 UNIT PLAN

A home planned around experiences.

A home planned not around rooms, but around experiences — where living, landscape, water and light come together as one continuous retreat.

GROUND FLOOR · NORTH FACE

1	Bedroom	20′0″ × 15′0″
2	Attached toilet	9′0″ × 14′3″
3	Dresser	9′0″ × 6′0″
4	Washing area	9′0″ × 6′0″
5	Powder room	9′0″ × 6′0″
6	Open kitchen	18′9″ × 10′0″
7	French window	9′0″ × 6′0″
8	Store	2′0″ × 6′0″
9	Hall	18′6″ × 40′0″
10	French window	3′0″ × 6′9″
11	Pooja area	3′0″ × 3′0″
12	Store	2′0″ × 6′0″
13	Bathroom	4′0″ × 6′0″
14	Attached toilet	9′0″ × 14′3″
15	Dresser	5′9″ × 14′3″
16	Bedroom	20′0″ × 15′0″
17	French window	3′0″ × 6′0″
18	Sitting area	7′0″ × 18′9″
19	Swimming pool	12′9″ × 18′9″

06 UNIT PLAN

Open to the sky.

An upper level of generous open terraces and a flexible multi room — for sunrise yoga, starlit evenings and quiet work.

FIRST FLOOR · NORTH FACE

1	Open terrace	21′6″ × 36′6″
2	Storage	5′6″ × 5′6″
3	Bathroom	5′6″ × 12′0″
4	Multi room	22′9″ × 18′6″

KEY FEATURES OF THE RESIDENCE

01

Single-level living

An expansive ground-floor layout eliminates unnecessary vertical movement and creates an effortless relationship between every space.

02

Central social core

Living, dining and kitchen form the heart of the residence, encouraging interaction and shared experiences.

03

Private bedroom wings

Two bedroom suites are positioned away from the central social zone for privacy and tranquillity.

04

Indoor–outdoor continuity

Living spaces open towards verandahs, decks, landscape and the swimming pool.

05

Resort-like pool experience

The central pool becomes a visual and experiential anchor for the residence.

06

Climate-responsive planning

Orientation, openings and transitional outdoor spaces encourage daylight, ventilation and shaded living.

07

Multiple outdoor experiences

Verandahs and decks for morning sitting, poolside relaxation, evening gatherings and quiet personal time.

08

Privacy without isolation

The bedroom wings remain private while keeping a visual and physical connection with the central landscape.

09

Flexible family living

The generous central spaces accommodate everyday family life as well as larger gatherings.

07 MASTER PLAN

Four private homes. One living landscape.

A community shaped not by boundaries, but by nature, water and shared experiences.

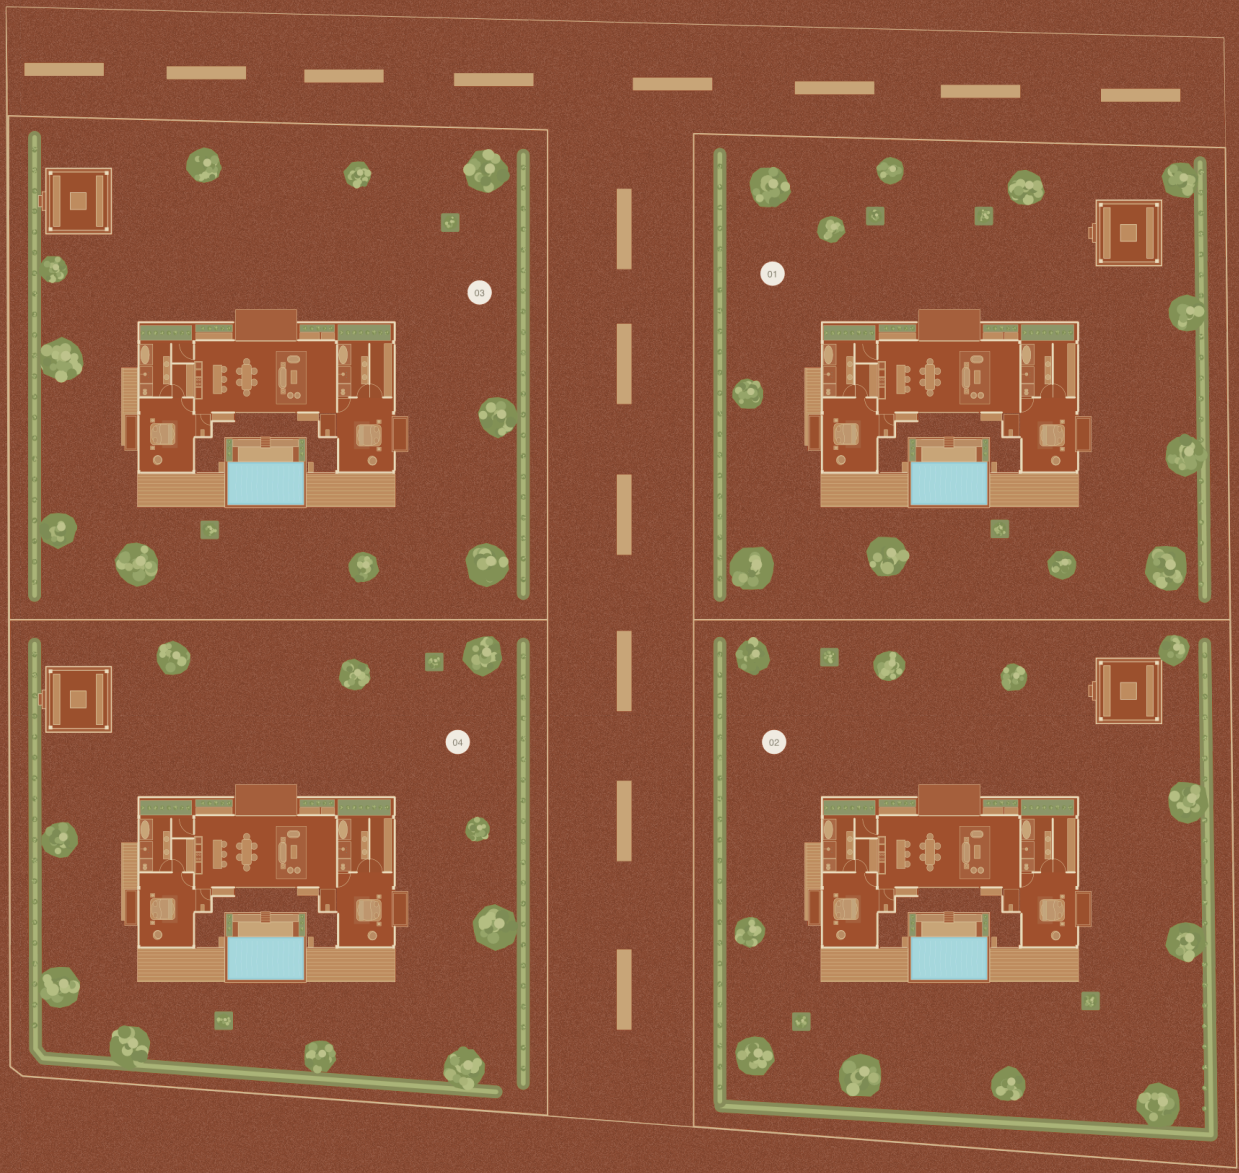

THE SEQUENCE

GARDEN → PRIVATE VILLA → LANDSCAPE → GARDEN → PRIVATE VILLA → LANDSCAPE

PLOT AREAS

01	19,690 sq ft	02	21,880 sq ft
03	20,590 sq ft	04	19,630 sq ft

ROAD AREA 10,500 sq ft

01

Independent private farmhouses

Four individually planned plots offer privacy, personal space, and the freedom to enjoy your own nature-inspired retreat.

02

Landscaped green surroundings

Every villa is surrounded by landscaped green spaces that bring nature closer to everyday life.

03

Tree-lined internal roads

Roads bordered by large trees offer shade, tranquillity and a pleasant arrival experience.

04

Dedicated gazebo spaces

Each farmhouse has its own gazebo for outdoor relaxation, intimate gatherings and peaceful moments.

05

Thoughtful plot planning

Built spaces, open areas and landscaping are balanced for openness and individuality.

06

A private nature retreat

Outdoor living, fresh-air experiences and quiet moments in nature, every day.

08 CLOSE TO THE CITY.
CLOSER TO NATURE.

Location

Beyond Vadodara's western edge, ILIKA finds its place amidst the quieter landscape of villages, farmland, trees and the Mahi River.

Yet this sense of escape remains remarkably connected. Gotri is approximately 30 minutes away, while the surrounding road network provides easy access to Vadodara and the city's everyday conveniences.

THE DRIVE

Gotri — Sherkhi — Sindhrot — Umeta — Navakhal — ilika

20–25 min from Gotri Lake

Easy weekend access from the city.

Proposed ring road

The upcoming 75 m Vadodara Ring Road.

Close to the expressway

Smooth connectivity to the expressway and major highway.

Natural surroundings

Peaceful, green and open landscape.

ilika
THE EARTH

Not just a farmhouse — a new way of living, grounded in the earth.
